

FABRICATION

Building on a tradition of success

www.mmrgrp.com

With over 50 years in the business, MMR has exceptional knowledge and experience in all phases of the industrial electrical industry.

Building or fabricating a panel to suit client's needs is a vital part of our overall commitment to providing the very best, comprehensive service. We are experienced in serving customers from diverse industries, and each one is given undivided attention and professional direction as we strive to complete projects on-time and within budget.

Whether your needs are pneumatic, hydraulic, analyzers, electronic or a combination of systems, our qualified team of specialists will manage your project professionally and efficiently. Our UL certification in the United States and Canada will further insure confidence and quality.

Regardless of whether panel fabrication is your entire project or just a portion, MMR will provide the most comprehensive and professional service available.
